

GOVERNMENT MEDICAL COLLEGE & AH RAJOURI

DEPARTMENT OF COMMUNITY MEDICINE

As directed by the worthy Principal, a team of health workers from the department of community medicine, GMC Rajouri was deputed to Niabat Peeri (Red Zone) to supervise and augment the ongoing Contact tracing and surveillance activities on 18th June 2020. The team provided hands on training to local health workers and ASHA's regarding the Ministry of Health guidelines for Contact tracing, their Classification into High and Low Risk Contacts and the SOP's for their 28 days surveillance. The health workers were trained in filling the various formats like Form-1, Form-2 and Form-2A used for contact tracing and house to house surveillance. The team of health workers from Department of Community Medicine, GMC Rajouri included;
