

## **Government Medical College and Associated Hospital, Rajouri**

GMC Rajouri is on forefront in dealing with current Pandemic of SARS CoV-2 virus. While intensifying preparedness for the unprecedented threat posed by COVID-19, GMC Rajouri at the outset established a separate Flu OPD which is dealing with patients having Influenza like symptoms (ILI). All staff, paramedics and other health workers were trained on various aspects of COVID-19 which included Infection control strategies and techniques of Sampling and its transportation.

Department of Community Medicine prepared various IEC material in local languages regarding various preventive aspects of COVID-19 and distributed the leaflets among general people visiting the hospital.

Microbiology department in addition of taking nasopharyngeal samples for corona virus at GMC Rajouri, trained healthcare workers at block level so that samples are taken at block level for convenience of general public. Two microbiologists were deputed to GMC Jammu for training in RT-PCR with the intent to start testing of samples at GMC Rajouri in near future.

GMC Rajouri set up various quarantine centers for travelers and also established a separate isolation ward for management of SARS-CoV-2 positive patients. In its preparedness to deal with patients requiring ventilatory support, college procured five new ventilators.

Department of Community medicine participated in various surveillance activities in the containment zones wherein local healthcare workers were given hands-on training regarding contact tracing and filling of various format (Form-1, Form-2 and Form 2A) issued by the Ministry of health for the purpose.

For management of stress during the lockdown, faculty members of GMC Rajouri organized many Yoga sessions. Also, many Yoga sessions were organized in various sections/departments of GMC Rajouri on eve of Yoga day on 21<sup>st</sup> June 2020.

All along these testing times, GMC Rajouri continued to provide various emergency services and teleconsultations 24X7.
